Dear Residents of Middleton City,

Regarding the yellow flyer distributed in Middleton Lakes Subdivision. Is the flyer information correct?

Some of the flyer information is correct and some not.

Cemetery Rd. is being constructed and attaches to Sawtooth. There were no speed bumps designed in any of those plans. Traffic could choose to go to Middleton Rd. down South Cemetery to Sawtooth instead of going through downtown access Middleton Rd.

I just became Mayor this year and have learned this road was designed, engineered, and paid for over the past several years. Middleton will not be stopping its construction.

Speed bumps could be constructed after the initial construction. They are not in the original design. The money to add speed bumps this year is not budgeted.

Please ask your Police chief to increase patrol on your streets of concern. He is a great guy and will try and help you.

I will ask your Police chief to increase patrol on those streets as well.

I understand your concerns.

Respectfully,

Steve Rule
